

Meet Dash

Age: 4 years

Sex: Male

Rescue: Kill Pen

Breed: Thoroughbred

Dash's Story

Dash is the first baby to be born at Animals & Kids. He helps his mom Grace run the herd in the pasture. Dash is soft and gentle and full of love. He allows any child of any size to lead him around and walks as slow as he needs to not walk over them. When Dash turned three years old, he got injured in the pasture overnight and completely degloved his back leg. We were uncertain of his future (athletically) with an injury of this type. Over the better part of a year, it has almost completely healed, and our veterinarian agrees his future is bright and this injury will not affect it. He will be started under saddle by our peer mentors as soon as he is 100% healed. Dash has his mother's kind and loving eye. When you look in it, you instantly feel at peace.
